Summary

Aspiring Full-Stack MERN Developer with over 2 years of academic and project experience in web development and data structures. Successfully built and maintained full-stack applications using the MERN stack, including designing responsive interfaces and developing RESTful APIs. Completed multiple projects, such as Social Media Application and an e-commerce platform. Seeks to leverage technical skills in a dynamic development environment as a Software Development Intern.

University of Punjab

Information Technology

Oct 2021 - Jan 2025

Skills

Node js, Mongo, Tenstack Query, JavaScript, Redux, Next.js, Express js, Rest, Kafka, SaaS, version control, Git

Projects

Ecommerce Platform

Jul 2024 - Aug 2024

- <https://github.com/AzibMoeen/Ecommerce>
- Built a full-featured e-commerce platform using the MERN stack, featuring user authentication, product management, shopping cart, and checkout functionality. Implemented responsive design with Tailwind CSS, integrated payment processing, and real-time inventory management. Utilized RESTful APIs and TanStack Query for efficient data handling and state management.

Youtube-clone

May 2024 - Jun 2024

- <https://www.azibtube.live/>
- Developed a YouTube clone using React JS and RapidAPI. This web app enables users to search for videos, browse by category and watch them

Real time chat App with react and Appwrite

May 2024

- <https://www.i-chat.social/>
- This real-time chat application utilizes Appwrite's robust features for user management and communication. Users can seamlessly register and

Full-Stack Instagram

- <https://github.com/AzibMoeen/Social-Media>
 - Developed a social media platform using the MERN stack, featuring user authentication with JWT, real-time messaging, and functionality for posting, following, liking, and commenting. The application supports secure user interactions and dynamic content updates for an engaging social
